

Success Story

Tapton Academy Trust + Microsoft Office 365

600+
students

6
separate sites

1374
email accounts

100%
complete solution

GOAL:

Millgate's in-depth research would need to provide the Tapton School Trust with the most suitable solution to their email collaboration problems, providing a streamlined learning experience.

ESSENTIALS:

Responsible for 600 pupils and over 850 staff members, Tapton School spans 8 sites. Their 'Outstanding' Ofsted rating means Millgate's solution needed to account for each individual carefully.

REQUIREMENTS:

Over 1300 email accounts needed to be working efficiently, collaboratively, and without disruptions.

CHALLENGE:

Tapton Schools' Trust identified a collaboration issue, as all sites were operating on separate email systems from multiple providers.

This meant there was no support available, or a contingency plan if the service went down.

SOLUTION:

Millgate provided the Trust's IT Director with a suitable solution, wherein all emails across 6 separate sites were migrated to Microsoft Office 365. This meant all 1374 mailboxes were migrated into one central system.

THE RESULTS:

As well as offering a suitable solution, Millgate also provided the Trust with additional collaborative opportunities. This was done through the creation of multiple address book policies and security groups, allowing the Trust to deploy secure OneDrive and SharePoint services between all sites.

About Millgate

Millgate help clients succeed by delivering tech products, services and solutions that actually work.
